DBC-16H Combination Rebar Cutter/Bender

Another innovative specialty rebar tool from BN Products-USA. This portable combination rebar cutter and bender provides job site cutting and bending of rebar (reinforcing steel) all in one device. This combination tool has a unique design that allows the operator to cut and bend rebar in-place or rebar in stationary fabrication applications. Now you can cut and bend rebar protruding from a wall or column or fabricate what you need on a table. Our rugged electric/hydraulic design is for heavy-duty #5 (16 mm) grade 60 rebar cutting and bending. It's fast and easy to use. There is no changing of attachments, bends rebar up to 180 degrees. This DBC-16H combination rebar bender/cutter is designed and built with the quality and reliability you would expect from BN Products-USA. Included with this tool are a plastic carrying case, tool kit, hydraulic oil, operations manual, and a one year parts and labor warranty.
