DBD-16X Table-Top #5 Rebar Bender

Bends #5 Grade 60 Rebar Faster, Safer and with less Effort.

This heavy-duty portable rebar bender helps to save valuable man-hours by bending rebar up to #5 (5/8") Grade 60 at the job site or in your shop. This strong electrical-mechanical bender has two preset angle locks for repeating the same angle bend. The dial-type angle selector can be set to accurately bend any angle from 0-180 degrees. Bends (3) each #3 rebar or (2) each #4 rebar or (1) each #5 rebar at one time. The roller chart makes it easy to select the correct combination of rollers to achieve a bending radius a minimum of five times the rebar diameter. An emergency stop switch and two side lifting handles are standard features. The DBD-16X portable rebar bender comes complete with set of (6) bending rollers in a steel carrying case, a tool kit, and a standard foot pedal control switch for hands-free bending. BN Products-USA backs this tool with a one-year parts and labor warranty.

Specifications for DBD-16X Heavy-Duty Table-Top Rebar Bender	
Maximum rebar bending diameter	#5 (5/8") (16mm) Grade 60
Bending Angle	0 – 180 degrees
Bending Speed	5 Seconds for 180 degree bend
Power Supply	115V 50/60Hz -10 amps
Weight (kg)	90 lbs. (40.8)
Dimensions (mm)	16.6" (425) L x 12.5" (320) W x 16.2" (415) H
