BNHC-20 REBAR CUTTER

The **BNHC-20** portable *medium-duty* rebar cutter will safely, efficiently, and cleanly cut rebar up to **#6 (3/4")** diameter grade 60. This tool was originally developed in 1972; continuous development has led to higher output, lower weight, and even greater toughness and durability.

The **BNHC-20** is a cold-cutting shear unlike saws with abrasive blades and cutting torches. There are no sparks or flame. Ideal for cutting epoxy-coated rebar. Fastest, safest, and most economical way to cut rebar on the job. A safety relief valve for retracting the piston and a cutting guard are standard features. Ships complete with additional hydraulic oil and a tool kit.

Specifications

BNHC-20	
Maximum Cutting Diameter	3/4" #6 Rebar (19mm) Grade 60
Cutting Speed / Pressure	3 Seconds / 15 Tons
Voltage / Amperage	115V 50/60Hz / 10 amps
Tool Weight	25.4 lbs (11.5 kg)
Dimensions L x W x H	16" x 4.3" x 8.2" (210mm) x (410mm) x (110mm)
