

BN PRODUCTS-USA™

Pull Form Stakes **EASILY** and **SAFELY** Using our Innovative **Stake Pullers**

1 - 2 - 3

Align the Stake Puller around the stake, centered between the roller grips, with the rollers facing you.

Tighten the grip by extending the handles upward until the grip is tight.

While firmly gripping the stake, rotate the stake by using a twisting motion to break the surface tension.

As the stake loosens, you'll lift it effortlessly out of the ground!

Two Styles to Choose From: **BNFT Stake Pullers**

BNFTSP Stake Puller
(with Belt Clip)

BNFTSPN Stake Puller
(with Duplex Nail Puller)

SAFER. FASTER.

A Better Way to Build Concrete Forms.
